

Attachment 65

Inspector General's Recommendation Number 65, Page 196

Recommended DCI Action: Approve.

Inspector General's Statement

Recommended that:

25X1A6a

25X1A6a

WH Division provide the Chief of Station, [REDACTED]
[REDACTED] with the operational advice, guidance, and
information to enable him to get moving, preferably
by means of a visit to the Station by a senior
operations officer with experience in a similar
situation.

DD/P Comment

Concur. While the Division considers the Chief of
Station competent from both the operational and the
linguistic point of view the fact remains that he took
over a Station with very limited assets and had been in
place only a short time when the inspection was made.
We agree, however, that he needs all the help he can get.
He will be visited by a senior Division officer at an
early date.
